For this Fall issue, NAJE solicited the names and addresses of composers and arrangers who write special commissioned works for vocal jazz ensembles. All the individuals listed below have been recommended very highly and most have tape recordings of their works. Several of the writers have publications with Kendor, Jenson, Barnhouse, Schmitt, G. Schirmer, Carl Fischer, Columbia Pictures, Camerico, Creative World and UNC Jazz Press, but still have the time to write special composition/arrangements for your particular group. We request that you contact each writer for a list of unpublished available tunes already completed (often commissioned works written over a year ago), their cost, the cost to write special commissioned works and a demo tape recording of some of their vocal jazz charts. Thank you and please contact me if you have any suggestions for additional composers/arrangers.
